Q1: The RFP mentions the Solid Waste Management Planning Guide, but the outlined scope of work does not follow the workflow set out in the Guide. What is the SLRD's preference for this project – should the guide's workflow be followed, or should we plan to follow the steps outlined in the RFP?

The SWRMP Update should follow the Ministry of Environment's "A Guide to Solid Waste Management Planning" while incorporating the requirements set by the Regional District outlined in *RFP: Solid Waste and Resource Management Plan Update Schedule "C" - Scope of Work*

Q2: Our team is aware that the SLRD has completed a 5-year effectiveness review for the current SWRMP. Can this be provided for reference?

The 5-year effectiveness review can be consulted following the link [SLRD SWRMP 5-year Effectiveness Review](#)

Q3: Item 2 in Schedule B indicates an hourly rate for work outside of the proposed Scope of Work. As our team will have multiple members at different charge out rates, can you please explain further what the intention of this item is?

Requesting hourly rates for work outside of the proposed Scope of Work is a standard part of Squamish-Lillooet Regional District's Request For Proposals. Please include a list of the team members along with their respective hourly rates.
