

Project Outdoors  
Shoot Aug 10 OR 11 2022  
Area 44 / The Pillary

Production company Field Trip is going is to take photographs and video of hiking to the Pillary section of Area 44, then shoot images in the Pillary area. Some climbing will happen, with a professional guide supervising safety.

No road disruptions are expected. One van would be parked in general parking at the Tantalus look out. Talent and crew will be shuttled in via 24 passenger van. The van will drive north from Squamish to the Chance creek bridge turnoff, then begin back south to the tantalus parking lot to drop crew. Expected crew ~ 25.

Crew will proceed to the Pillary on foot. No generators will be on site. All equipment is battery powered and will be hand held.

Based on the location we will not be impacting any neighbours. Will will work with other climbers in the area to minimize impact on their experience.

Production contact is producer Sean Frith, 604.764.7872 - [sean@gofieldtrip.ca](mailto:sean@gofieldtrip.ca) we plan to be in the area for 6-7 hours between Aug 10 & 11.

Please let me know if you have any questions
